# MEMORANDUM

---

TO: David S. Koppel, P.E., County Engineer  
From: Clark Briggs, Engineering Department  
Date: November 10, 2005  
Subject: Hurricane Wilma Emergency Road Repairs

---

As a result of Hurricane Wilma, several contractors were contacted and asked to provide proposals for emergency road repairs to heavily damaged roads in the following locations:

Colson Drive, Cudjoe Key  
Indies Road, Ramrod Key  
Middle Torch Road, Middle Torch Key  
Dorn Road, Big Torch Key  
State Road 4A, Little Torch Key  
Iroquois Road, Big Pine Key  
Long Beach Road, Big Pine Key  
Seaview Avenue, Conch Key

The results for the requests for proposal are as follows:

Charley Toppino & Sons, Inc. - \$299,375.00 - Not interested in repairs on Conch Key.  
Bat Construction – Would not be able to perform work due to current work load.  
J.A. LaRocco – Would not be able to perform work due to current work load.  
Upper Keys Marine – Not Interested.  
B & L Beneway, Inc. - \$8,900.00 for repairs on Seaview Avenue, Conch Key.

I recommend the proposal of \$299,375.00 submitted by Charley Toppino & Sons, Inc. for the repairs to be made in the above mentioned roads excluding Seaview Avenue on Conch Key.

I recommend the proposal of \$8,900.00 submitted by B & L Beneway, Inc. for repairs to be made to Seaview Avenue on Conch Key.

## Hurricane Wilma Emergency Roadway Repairs

Date: November 10, 2005

The following is a Scope of Work for emergency roadway repairs required for safe travel on heavily damaged roadways in Monroe County. As a result of Hurricane Wilma, several Florida Keys roads sustained heavy damage making these roads hazardous to travel. The storm surge associated with the hurricane washed out roadway shoulders which led to the undermining of roads in some areas as well as the lifting up of pavement. Emergency repairs are required not only to provide safe travel on these roads but also to prevent further damage which is inevitable.

Location	Scope of Work
State Road 4A, Little Torch Key	Re-building and re-grading of roadway shoulders for an approximate distance of 3300 linear feet with 980 linear feet of asphalt to be milled and repaired with flowable fill. Work to include maintenance of traffic.
Long Beach Road, Big Pine Key	Approximately 2700 linear feet of roadway shoulder repair with an 8' by 10' section of asphalt to be repaired with flowable fill.
Indies Road, Ramrod Key	Approximately 900 linear feet of roadway shoulder repair, 34 linear feet of rip-rap boulder placement, 245 linear feet of concrete bags installation and 40 linear feet of asphalt repaired with flowable fill.
Dorn Road, Big Torch Key	Approximately 10650 linear feet of roadway shoulder repair, repairs made to culvert and 150 square feet of asphalt repaired with flowable fill.
Middle Torch Road, Middle Torch Key	Approximately 7600 linear feet of roadway shoulder repair.
Iroquois Street, Big Pine Key	Approximately 330 linear feet of rip-rap boulder installation and 100 linear feet of road repaired with flowable fill.
Seaview Avenue, Conch Key	Saw cutting and removing 1600 square feet of asphalt, filling and compacting voids with limerock, reinstalling guardrail, rip-rap installation and repaving damaged asphalt area.
Colson Road, Cudjoe Key	Installing rip-rap in a 50' by 12' area, back filling and compacting voids with limerock
